

Cross-Area Application Budget Templates

Appendix A: Budget Templates for Cross-Area Applications

- If you are seeking funding in more than one Communities' Choice Area, a separate budget template is required to indicate the cost associated with each location. You should clearly specify the costs relevant to delivering your project in that area. This must include all expenses related to any venue or room hire in each location, and you must state the name of the Community Centre or location being used explicitly, estimates are not acceptable.
- For generic costs that apply across all areas, such as marketing materials or promotional posters, include these on each budget template. If you have not yet coordinated with a venue in each location, it is essential to do so before submitting your Part 2 application form. Please note, generic or estimated costs will not be accepted.
- If you need assistance finding a suitable community venue, the Communities' Choice team at TVA can connect you with an appropriate Partner or Community Hub. You can find the details for contacting the team at the end of this form.
